

Gerrit Fleuren Ventures

COMPANY
PROFILE

2021

ABOUT US

Gerrit Fleuren Ventures contributes to the development of aquaculture sub-sector in Nigeria and Africa as a whole, with focus on capturing the feed market with high-performance fish feed, sale of quality catfish seeds (including fingerling, juvenile) and table-size, sale of fishery equipment and facilities as well as providing general consultancy (which involves conducting feasibility studies and turning them into key projects) and management services.

Our target clients/customers are the fish farm owners and key operators in the sub-sector, who are in need of great products and services at a reasonable price along with excellent follow-up of after-sale services. These have been achievable by laying emphasis on human capital development which involves employing people, training and motivating them to share our vision, thereby making the network of the company spread within Nigeria and to the rest of Africa.

MISSION

- ✓ Bring inspiration and innovation with passion and optimism to the aquaculture sub-sector in Africa.
- ✓ Delivering high quality fishery products and unmatched services.

VISION

- ✓ High-technology solutions for large and medium scale farmers serving the world.
- ✓ Making African countries less dependent on fish importation, thereby strengthening the food sustainability of the region.
- ✓ Achieve recognition by players in the aquaculture sub-sector as delivering the highest quality of fishery products and services.

OUR TEAM

We pride ourselves on the quality of our team. And this is evident in the high level of commitment and professionalism we show towards all our projects. Here are some of the amazing people behind Gerrit Fleuren Ventures:

Adama Enyojo
Engineer

Salifu Ugbede Marvellous
Fisheries Consultant

Dominic Iyodo
ICT Consultant / PRO

Because we are committed to the success and satisfaction of our customers, we share knowledge and consequently give sincere and honest advice while creating an effective feedback mechanism.

OUR SERVICES

Fish Farm Design & Construction

Our team of highly proficient engineers is committed to designing and building fish farms using high technology solutions for both medium and large-scale farmers. And this accounts for high success rates our clients enjoy in their fish farming business

Hatchery Equipment Supply & Installation

Gerrit Fleuren Ventures can supply and install Hatchery equipment on your farm. We pride ourselves on the quality of our work and this is a testimony to the fact that we have some of the best hands in the industry.

Sales of Fish Feed, Farming Tools & Equipment

We are aware of the fact that, the choice of fish meal greatly impacts on growth rate of your fishes and consequently the success of your harvest. Hence, we stock some of the best of fish feeds produced by reputable Companies around the world.

Training & Internship

As the world population grows, aquaculture is emerging as one way to satisfy the world's demand for fish. By training more fish farmers, Gerrit Fleuren Ventures is poised to be a part of the solution to global food security.

OUR SERVICES

Consultancy

we have competent consultants, skilled in various areas of aquaculture and fisheries science and have many decades of combined experience in practical, applied, and theoretical aspects of the field.

Production and Supply of Catfish & Tilapia Fingerlings and Broodstock

Our Catfish and Tilapia Fingerlings are in high demand by farmers all over Africa. And this is testimony to the fact that our specie of catfish grows fast and are very strong with high resistance to diseases.

Sales of Fishes For Consumption

We have fish available for consumption all year round despite increasing demands. This is because our harvest cycle is designed in such a way that fishes are always available to meet consumer demand.
